Letters pertaining to ausiness should be addressed New Mexican Printing Co., Santa Fe, New Mexico.

The New Mexican is the oldest news-oaper in New Mexico. It is sent to every Post Office in the Territory and has a large and growing direculation among the intelli-gent and progressive people of the south-

MONDAY, JULY 8.

New Mexico is financially (). K.

Put your shoulder to the wheel and invite immigration to New Mexico.

Now that the insurgents have such an active and formidable ally as Yellow details were arranged and contracts

Jack, it really begins to look as if the signed, and he had a talk with Frank Cubans might soon acquire a Fourth of July franchise of their own.

THE wheel craze is said to have cost California \$2,000,000 so far this year. At a distance of about twenty miles between

SPEAKING of the late Democratic conyention in Kentucky, the Brooklyn Standard-Union, bigoted Republican gold organ, says: "What causes the commotion south of the Ohio, from the mountains of Virginia to the Mississippi? Simply the fact that the great bulk of the Democracy, no matter what the record of the convention that is clearly demoralized all dependent Democrat. through may be, are affirmatively and aggressively and determinedly for the free, independent and unlimited coinage of silver at the ratio of 16 to 1. That is what is the matter with Kentucky."

### THE COLD TRUST IS ON TOP.

This is a frank confession, coming made: from a Democratic newspaper, the New A. C. Teichman, Cerrillos. York Journal: "The Morgan-Belmont syndicate operations show, however much effort to blur and disguise the same may be made, that the great investing forces of the Old World find it distinctly to their most direct advantage and stability to aid positively in preserving the credit of this land. A big game has been played on their part to compel the artificial enhancement of debt and credit payments through bank centralization upon the gold standard. It has been forced almost to panic pressure, temporarily resulting, of course, to the great profit of large buyers on falling prices. At its ultimate SOL. SPIEGELBERG, Henry Krick point this policy has been found to predicate such widespread disaster that great financial operators here and elsewhere, but especially in Europe, have ordered a sharp halt. Operators for credit money only are frightened. They have milked the udder, but dare not strip it. The elements are too dangerous and financial ruin too probable. This is the secret behind all the 'high finance,' as it is called. Hereafter the forces veer for trimetallism."

### DISAPPEARING DEFICIT.

The St. Louis Globe-Democrat rather reluctantly and guardedly remarks: "The fact that the treasury deficit was \$26,-000,000 less in the fiscal year just ended than it was in the one immediately preceding gives some ground for hope that it will disappear before the present year ends." The Globe-Democrat might have added, if it had desired to be perfectly candid with its renders, that the enormous treasury surplus turned over to the Republicans by the first Cleveland administration was not only squandered during the succeeding Harrison administration, but the foundation was laid for a huge deficit in the form of ruinous tariff legislation that produced an almost unexampled depression in all branches of business and thus largely reduced the consumption of revenue yielding articles; and that, since the new Democratic tariff system has been in operation, the country has entered upon what promises to be a remarkable era of business prosperity, with enhanced profits for invested capital and increased wages for millions of working people, all of which is certain steadily to swell the receipts of the government and transform the existing deficit into a surplus before the close of the current fiscal year. This will be hard on the Republican calamity shrickers throughout the country who are afflicted with an aching anxiety to be restored to federal positions, but it will hardly excite the uncontrollable anger of the overwhelming majority of the American people.

The World's Fair Tests FINEST STANDARD PAPERS showed no baking powder so pure or so great la leavening power as the Royal.

PRESS COMMENTS.

A Great Debate.

Miss Josie Hix is W. H. Harvey's private secretary. In her desk in Mr. Harvey's office she has the names, addresses and civil or military titles of some 50,000 free silver advocates. She knows personally everyone of the leaders in the silver cause, and usually can lay her finger on any of them. Just now, however, she is densely ignorant of the where-abouts of Mr. Harvey himself. Every day she leaves the Fort Dearborn build-ing with an armful of letters, books and challenges, and hurries to the Winder-mere hotel, but when she is on duty in her office she shakes her head and smilingly protests that she hasn't the remotest idea where Mr. Harvey is. The fact 1 00 est idea where Mr. Harvey is. The fact is, however, that Mr. Harvey is preparing for his coming monetary "set to" with Roswell G. Horr, the single-standard heavy-weight of the Atlantic coast, and has pitched his training quarters at the Windermere hotel. The contest will come off July 16 and will consist of fourteen rounds of three hours each. Judge Blodgett and Judge Caldwell have been selected by both sides as referees; Lyman J. Gage will be in the corner for the eastern man and H. A. Taylor will look for Mr. Harvey between the rounds. The fight will be to a finish and both men are training hard. Horr is at work, it is said, in Plainfield, N. Y., and has Edward Atkinson as trainer. His quarters are in a secluded spot, and no one is per mitted to intrude.—Chicago Record.

The Rio Grande Dam.

Maj. Llewellyn brings word from Chi cago that Frank Smith has secured the capital necessary to build irrigation works on the Rio Grande, and that the sum of \$20,000 has been deposited with the Title Guarantee & Trust company, of Chicago, to pay for surveys and prelimi-nary work. This is not a mere rumor. Mr. Llewellyn saw the cablegram trans-mitting the money and stating that all

Smith and Mr. Owen about the matter.
The dam will be built at the narrow THE state of Pennsylvania has continuously maintained a hospital for the insane since 1841. During that period, of the 10,000 patients treated, 4,500 were the 10,000 patients treated, 4,500 were when completed, will be 100 miles long, when completed, will be 100 miles long. tinuously maintained a hospital for the the bottom and twenty-five feet on top, cured and 2,705 were improved. So it appears that insanity is by no means the hopeless disease it was considered in ye proposed to carry it through the Franklin mountains by a tunnel to the land of the

Isleta grant back of Fort Bliss.

The Santa Fe track will be removed for California \$2,000,000 so far this year. At least Chicago claims to have sold California bicycle dealers wheels to that amount, while in Denver \$1,000,000 is now invested in bicycles and business men complain that the craze is largely responsible for a marked falling off in the savings banks deposits.

Speaking of the late Democratic conployed.

The

## PECOS VALLEY **NEW MEXICO**

FFERS unequaled advantages to the farmer, fruit grower, live stock raiser, dairyman, beekeeper, and to the home-seeker generally.

The soil of the Pecos Valley is of high average fertility, and under irrigation produces bountiful crops of most of the grasses, grains, vegetables, berries and fruits of the temperate and some of those of the semi-tropical zone. In such fruit as the peach, pear, plum, grape, prune, apricot, nectarine, cherry, quince, etc., the Valley will dispute for the pre-eminence with California; while competent authority pronounces its upper portions in particular the finest apple country in the world.

Enormous yields of such forage crops as alfalfa, sorghum and Egyptian corn make the feeding of cattle and sheep and the raising and fattening of hogs a very profitable occupation.

The cultivation of canazgre—a tanning material of great value—is becoming an important industry in the Pecos Valley, a bome market having been afforded for all that can be raised, at a price yielding a handsome profit.

The climate of the Pecos Valley has no superior in the United States, being pre-eminently healthful and

Lands with perpetual water-rights are for sale at low prices and on easy terms. The water supply of the Pecos Valley has no equal in all the arid region for constancy and reliability; and this with the superb climata, productive soil and the facilities afforded by the railway which extends through the Valley's entire length, will cause these lands to enjoy a constant, and at times rapid, increase in value.

The recent completion of the Pecos Valley Railway to Roswell will cause the more rapid settlement and development of the upper portions of the Valley, including the rich Feliz section. The company has recently purchased many of the older improved farms about Roswell, and has now for sale lands to meet the wants of all—raw lands, partially improved lands, as well as farms with houses, orchards and fields of alfalfa and other crops. In the vicinity of Roswell several pieces of land have been divided into five and ten acres tracts, suitable for orchards and truck farms in connection with suburban homes. Certain of these tracts are being planted to orchards, and will be cultivated and cared for by the company for three these tracts are being planted to orchards, and will be cultivated and cared for by the company for three years at the end of which period they will be handed over to the purchasers. Write for pamphlet fully describing the terms and conditions on which these several classes of tracts are sold.

# The Forum

AMERICA'S LEADING REVIEW

\$3.00 25c. a Number. For Sale Everywhere. imm

THE FORUM will take up for discussion, during 1895, an unusually wide range of timely and important topics by the most eminent writers in the fields of Politics, Finance, Sociology, Literature, Religion, Art, and Science.

o read The Forum is to keep in touch with the best thought of the day.

A catalogue of the writers who have contributed articles to THE FORUM in the past would embrace practically every man of eminence in America, and most of those in Europe. A list of subjects treated would cover in the widest degree all topics of contemporaneous interest. THE FORUM is therefore of inestimable value to any one who desires to keep closely in touch with the best of current thought.

THE FORUM PUBLISHING COMPANY, Union Square, New York.
